DIGITAL MEDIA 2

Digital Media 2 is a course designed to teach the process of planning, instructional design, development, and publishing of digital media and interactive media projects. Digital Media 2 is the second-year course within the digital media pathway where students will focus on developing advanced skills to plan, design, and create interactive projects using the elements of text, 2-D and 3-D graphics, animation, sound, video, digital imaging, interactive projects, etc. These skills can prepare students for entry-level position and other occupational/educational goals.

- Students will use and enhance skills learned in Digital Graphic Arts Intro and Digital Media 1.
- Students will create a 3D graphic and be introduced to animation.
- Students will learn and follow the process of planning, designing, creating digital assets, evaluating, revising , and publishing interactive digital media projects
- Students will know how to develop interactive media projects by understanding the team dynamics or as an individual.
- Students will create an interactive digital media portfolio for digital delivery which showcases a student's projects, work, and skills. Projects included can be created individually or as a team.
- Students will participate in a work-based learning experience and/or student competition.
